

# Integrating Scringo into your Buzztouch Android Project

\*\*\*\* The Video shows editing the code for a Tabbed Layout.

In Additional Resources below I also included sample code for a NON-Tabbed layout.

It's exactly the same steps!

**IMPORTANT!! Do not add the code to both Tabbed & NON Tabbed layouts. It's one or the other. If it's used in both it won't work right.**

This is a basic guide to get Scringo up and running in your Buzztouch Android project.

Use the Scringo.com resources and Buzztouch forum for additional help.

Contact [ian@buzztouch.com](mailto:ian@buzztouch.com) for any suggestions on this integration.

## Video Tutorial (10 minutes) link:

<http://www.youtube.com/watch?v=AiLfMEaE-1s&feature=youtu.be>

## Additional Resources:

### Tabbed Layouts

**Sample BT\_activity\_root\_tabs file** (search for Scringo in this document and you can see what needs to be added to your BT\_activity\_root\_tabs.java file)

link:

[https://dl.dropboxusercontent.com/u/39276137/ScringoAndroidBT\\_Root\\_tabs.txt](https://dl.dropboxusercontent.com/u/39276137/ScringoAndroidBT_Root_tabs.txt)

### NON-Tabbed Layouts

**Sample BT\_activity\_base file** (search for Scringo in this document and you can see what needs to be added to your BT\_activity\_base.java file)

link:

<https://dl.dropboxusercontent.com/u/39276137/BTActivityBaseNonTabbedScringo.txt>

**Scringo Getting Started** (Android) instructions link:

<https://dev.scringo.com/resources.php?resource=Getting%20Started&sub=Android>

**Add the Back Button to close the Sidebar (3 minutes)**

<https://dl.dropboxusercontent.com/u/39276137/ScringoBackButton.pdf>

**Scringo Radar Tutorial (8 minutes)**

<https://dl.dropboxusercontent.com/u/39276137/ScringoRadarAndroid.pdf>

**Facebook Login with Scringo (5 minutes)**

These video tutorials get Scringo Facebook Login working with Debug & Release modes for your Buzztouch Android project.

I have also included the written steps for Mac & Windows.

links:

**Debug Mode (Highly suggested to view this before Release Mode!):**

<https://dl.dropboxusercontent.com/u/39276137/ScringoDebugFacebookLogin.pdf>

**Release Mode:**

<https://dl.dropboxusercontent.com/u/39276137/ScringoReleaseFacebookLogin.pdf>

**Twitter Login with Scringo (Similar idea to Facebook Login Tutorial)**

1. Go to <https://dev.twitter.com/apps/new> and create an app (if you don't have one already)
2. **Important:** Don't leave the Callback URL empty, fill it with something, even <http://www.test.com>
3. Find the OAuth settings and copy the **Consumer key** to `twitter.app.token` and the **Consumer secret** to `twitter.app.secret` in the `assets/scringo.properties` file

Cheers!
